Taking Initiative

“You cannot do everything,” Fawn Germer says in this Success Talk. In order to prioritize and manage your time more effectively, she suggests that you identify your goals and what matters to you most.

Identify your top 3 goals at this time:

- 1.
- 2.
- 3.

Now use Fawn’s method for determining what is most important to you based on what you are doing now, the urgency of it, and how you should approach it.

	Urgent	Not Urgent
Important	Do now	Decide when to do it
Not Important	Delegate	Don't do it
